NOTE FOR: Chief, Information and Management Support Staff, OL

FROM:
Chief, Supply Division, OL

SUBJECT: Fiscal Plans for

The attached plans have been reviewed by the Supply Division. There is not enough information to ascertain if a logistics plan is also required. We note with interest that all five fiscal plans reflect the necessity for logistics support and it would be appropriate that someone from the Office of Logistics receive briefings on these projects to ascertain the degree of support required. Our early involvement in these projects enables the Office of Logistics to do a better job in resource planning.
